

GrantSearch, a product of the Grants Resource Center (GRC), is a database comprised of over 1,500 recurring funding opportunities. Each entry contains information about the scope of the funding announcement, any restrictions or special submissions required to apply, funding agency contact information, a link to the opportunity and sponsor, and links to other information. Each opportunity is individually verified by GRC staff members to ensure that only the most current information is reflected.

Faculty Alerts

Faculty Alerts allow faculty and staff to receive personalized funding alerts based on specific research interests and are generated through the GrantSearch database.

- Faculty Alerts go directly to you based on your unique interests.
- You can setup as many Faculty Alerts as you would like to differentiate your interests (i.e.: one about research, one about student support);
- You will receive your Faculty Alerts on a monthly basis based on the criteria you provide;
- Faculty Alerts only include funding opportunities with deadlines during the following three months;
- Faculty Alerts is a resource meant to supplement rather than replace active searching for support using tools such as via GrantSearch.
